

# **Will Cell Phone Frequencies Release Biological Payloads from Vaccines on October 4<sup>th</sup>, 2023?**

# **EMERGENCY REPORT**

## **Part 1**

**Release Date: September 24, 2023**

This report is specifically for the 5% of people who have basic discernment capabilities and can connect the dots and come to your conclusion and take appropriate action.

# PUBLIC NOTICE

On October 4, 2023, Public Safety, Homeland Security, the Security Bureau and FEMA will conduct a nationwide test of the [Emergency Alert System \(EAS\) and Wireless Emergency Alerts \(WEA\)](#).

Public Safety and Homeland Security Bureau of the Federal Communications Commission provides notice to all EAS) Participants, Participating Commercial Mobile Service (CMS) Providers and the public that the Federal Emergency Management Agency (FEMA), in coordination with the FCC, will conduct nationwide tests of the EAS and Wireless Emergency Alerts (WEA) on October 4, 2023. If conditions on that date require the rescheduling of the tests, they will be conducted on October 11, 2023. Nationwide EAS and WEA Tests FEMA will initiate the test of WEA at 2:18 pm EDT on October 4, 2023.

In a sane world, an EAS/WEA would be a welcome occurrence, however, we reside in anything but a sane world. In fact, to informed well-researched people, our world has become absurd and surreal on multiple levels.

For over 2 years researchers on the social research platform Freedom.social have been researching and posting information about the ingredients of the Covid-19 “injection” that billions of people received. In August 2022 I released a report on the [Intra-Body Nano-Network](#). In writing the report, I utilized research from scientists, independent laboratories, doctors, patents, white papers, research papers, science websites, and the CDC (Centers for Disease Control), NIH (National Institute of Health), and WEF (World Economic Forum). The report connected the dots and provided details to the ingredients of the injection, and that the injection contained Nanotechnology and Graphene Oxide.

In short, the Intra-Body Nano-Network is [defined by the CDC](#) as: Intra-body communication networks are designed to interconnect nano- or micro-sized sensors located inside the body for health monitoring and drug delivery. The most promising solutions are made of implanted nanosensors to timely monitor the body for the presence of specific diseases and pronounce a diagnosis without the intervention of a physician. In this manner, several deadly health conditions such as heart attacks are avoided through the early in vivo detection of their biomarkers. In reality, nanosensors are challenged by the individual specificities, molecular noise, limited durability, and low energy resources.....

**“... nano- or micro-sized sensors located inside the body for health monitoring and drug delivery.”**

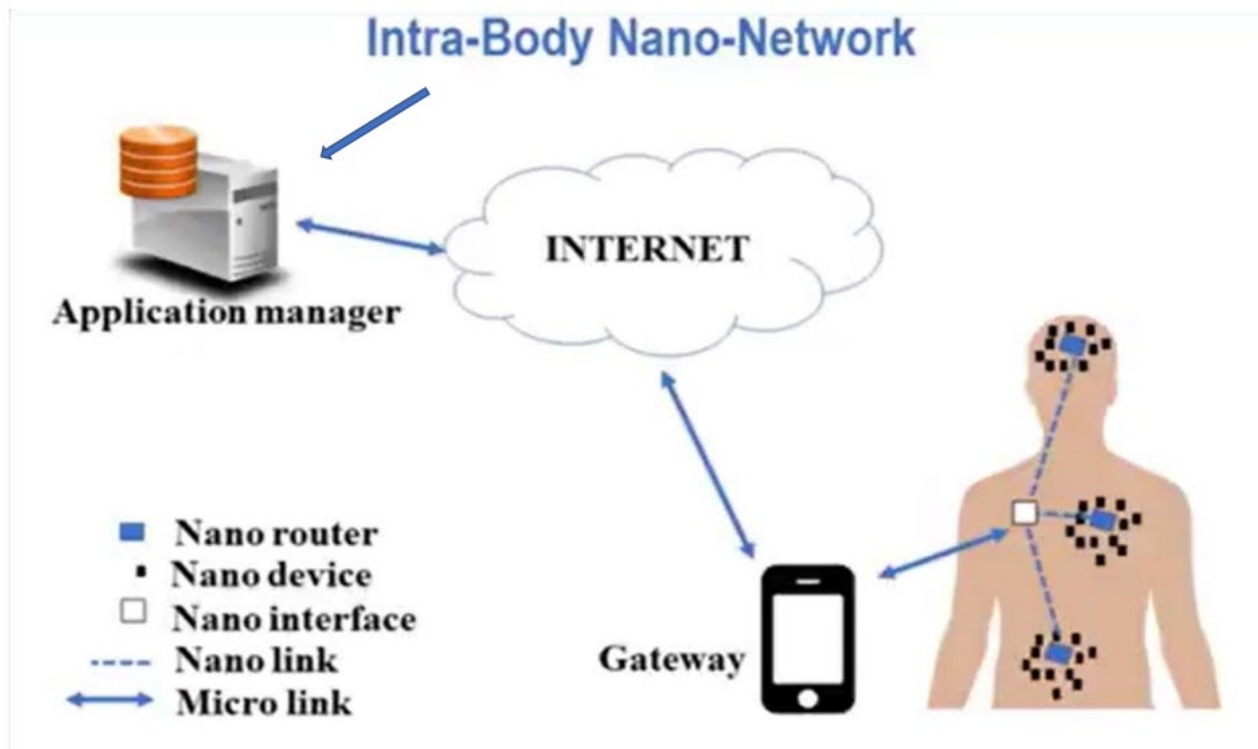

### An intra-body molecular communication networks **framework** for continuous health monitoring and diagnosis

#### Abstract

Intra-body communication networks are designed to interconnect nano- or micro-sized sensors **located inside the body for health monitoring and drug delivery.**

The most promising solutions are made of implanted nanosensors to timely monitor the body for the presence of specific diseases and pronounce a diagnosis without the intervention of a physician. In this manner, several deadly health conditions such as heart attacks are avoided through the early in vivo detection of their biomarkers. In reality, nanosensors are challenged by the individual specificities, molecular noise, limited durability, and low energy resources.....

# Remotely controlled electro-responsive on-demand nanotherapy based on amine-modified graphene oxide for synergistic dual drug delivery

## Remotely Controlled Electro-Responsive On-Demand Nanotherapy Based on Amine-Modified Graphene Oxide for Synergistic Dual Drug Delivery

The [science paper](#) was released in September 2022 on the website Science Direct which details how **smartphones can be utilized to release payloads from Graphene Oxide and introduced to the human body.**

### Abstract

This study focuses on the development of a new electric field responsive [graphene oxide](#) (GO) [nanoparticle](#) system for on-demand drug delivery. Today, GO is an attractive option adopted in various biological applications for its exclusive features such as flexibility, conductiveness, cost-effectiveness, and external stimuli-responsive nature. This kind of therapy has lesser side-effects, drug resistance, and is more effective than utilizing only one drug. This study aims to determine low-voltage-controlled dual drug (aspirin and doxorubicin) release from GO surface. **Here, we have demonstrated how to control the drug release rate remotely with a handy mobile phone**, with zero passive release at idle time. In addition, the study focused to estimate the synergism of aspirin with doxorubicin in the release mechanism from GO in the presence of external voltage, using the spectroscopic method. Moreover, we observed aspirin- and doxorubicin-induced synergistic antitumor activity in MDA-MB 231 (breast cancer cell) *in vitro*. Thus, our study presents a noble combination of aspirin and doxorubicin that could be utilized for remotely controlled on-demand drug delivery for triple negative breast cancer treatment, using GO as a carrier.

# Electromagnetic fields act via activation of voltage-gated calcium channels to produce beneficial or adverse effects

## Abstract

The direct targets of extremely low and microwave frequency range electromagnetic fields (EMFs) in producing non-thermal effects have not been clearly established. However, studies in the literature, reviewed here, provide substantial support for such direct targets. Twenty-three studies have shown that voltage-gated calcium channels (VGCCs) produce these and other EMF effects, such that the L-type or other VGCC blockers block or greatly lower diverse EMF effects. Furthermore, the voltage-gated properties of these channels may provide biophysically plausible mechanisms for EMF biological effects. Downstream responses of such EMF exposures may be mediated through  $\text{Ca}(2+)$  /calmodulin stimulation of nitric oxide synthesis. Potentially, physiological/therapeutic responses may be largely as a result of nitric oxide-cGMP-protein kinase G pathway stimulation. A well-studied example of such an apparent therapeutic response, EMF stimulation of bone growth, appears to work along this pathway. However, pathophysiological responses to EMFs may be as a result of nitric oxide-peroxynitrite-oxidative stress pathway of action. **A single such well-documented example, EMF induction of DNA single-strand breaks in cells**, as measured by alkaline comet assays, is reviewed here. Such single-strand breaks are known to be produced through the action of this pathway. Data on the mechanism of EMF induction of such breaks are limited; what data are available support this proposed mechanism. Other  $\text{Ca}(2+)$  -mediated regulatory changes, independent of nitric oxide, may also have roles. This article reviews, then, a substantially supported set of targets, VGCCs, whose stimulation produces non-thermal EMF responses by humans/higher animals with downstream effects involving  $\text{Ca}(2+)$  /calmodulin-dependent nitric oxide increases, which may explain therapeutic and pathophysiological effects.

**Keywords:** calcium channel blockers; intracellular  $\text{Ca}^{2+}$ ; low frequency electromagnetic field exposure; nitric oxide; oxidative stress; voltage-gated calcium channels.

## The Late and Wonderful Dr. Rashid Buttar

Dr. Buttar stated that 3 bursts from 5G at 16 to 18 GHz would release the “payload” or pathogen contained within the injection. Buttar said there are 3 pathogens: Marburg’s, Prions, and another Buttar did not know.

Here is a video of Dr. Buttar discussing this:

**Dr. Buttar explains the frequency from smartphones will be released in 2023 and Marberg’s disease has over an 80% death rate.**

It was directly said by Dr. Buttar and speculated by many others that he was poisoned and murdered for airing this [video](#).

Dr. Buttar, 57, one of the top physicians in all the world, a retired Major in the U.S. Army who served in special forces, a solid family man and friend to many, left this world on Thursday, May 18, 2023.

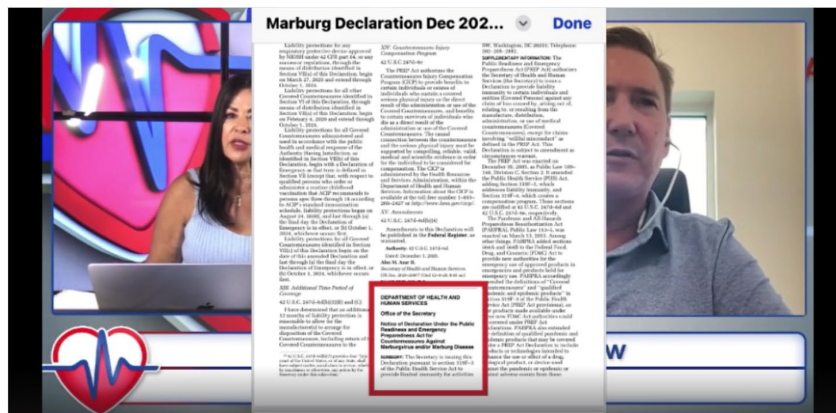

# Attorney Todd Calendar

Attorney Todd Callender has stated in many interviews that the government will be releasing a Marburg on the public via frequencies at 18 GHZ and that the Covid was merely a test run.

Interview with Todd Calendar, Dr. Chambers and [Maria Zee](#):

Interview with [Dr. Jane Ruby](#):

Interview with [Man in America](#):

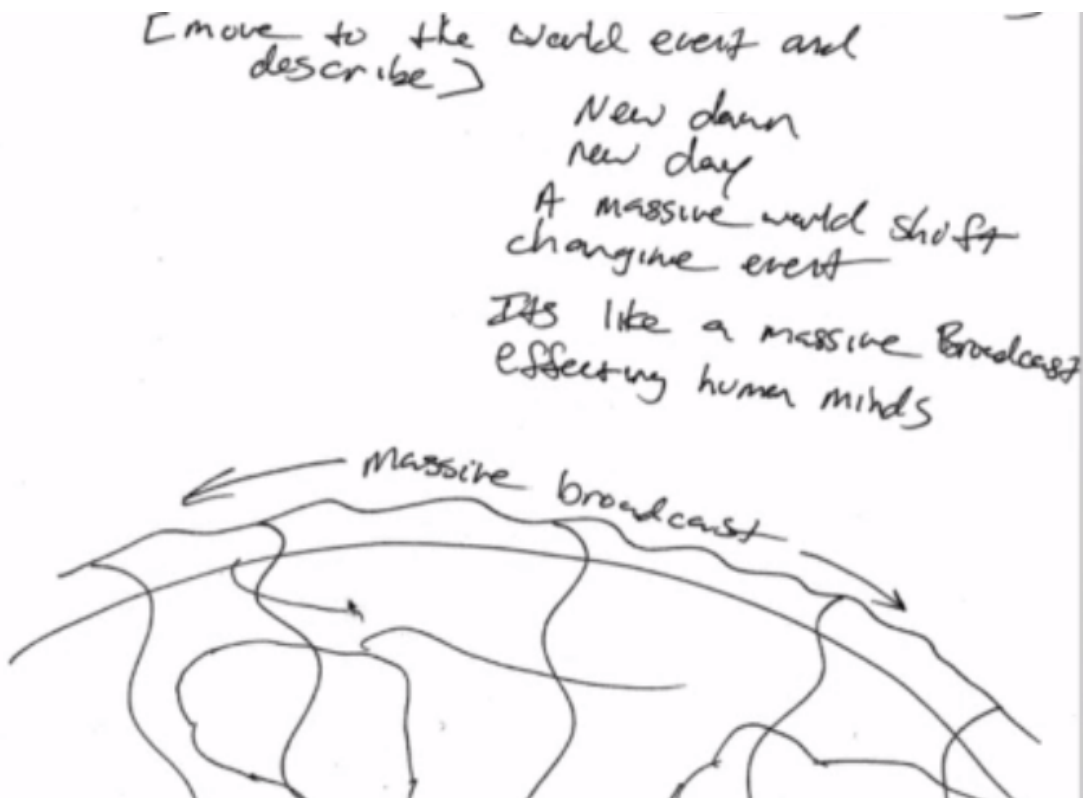

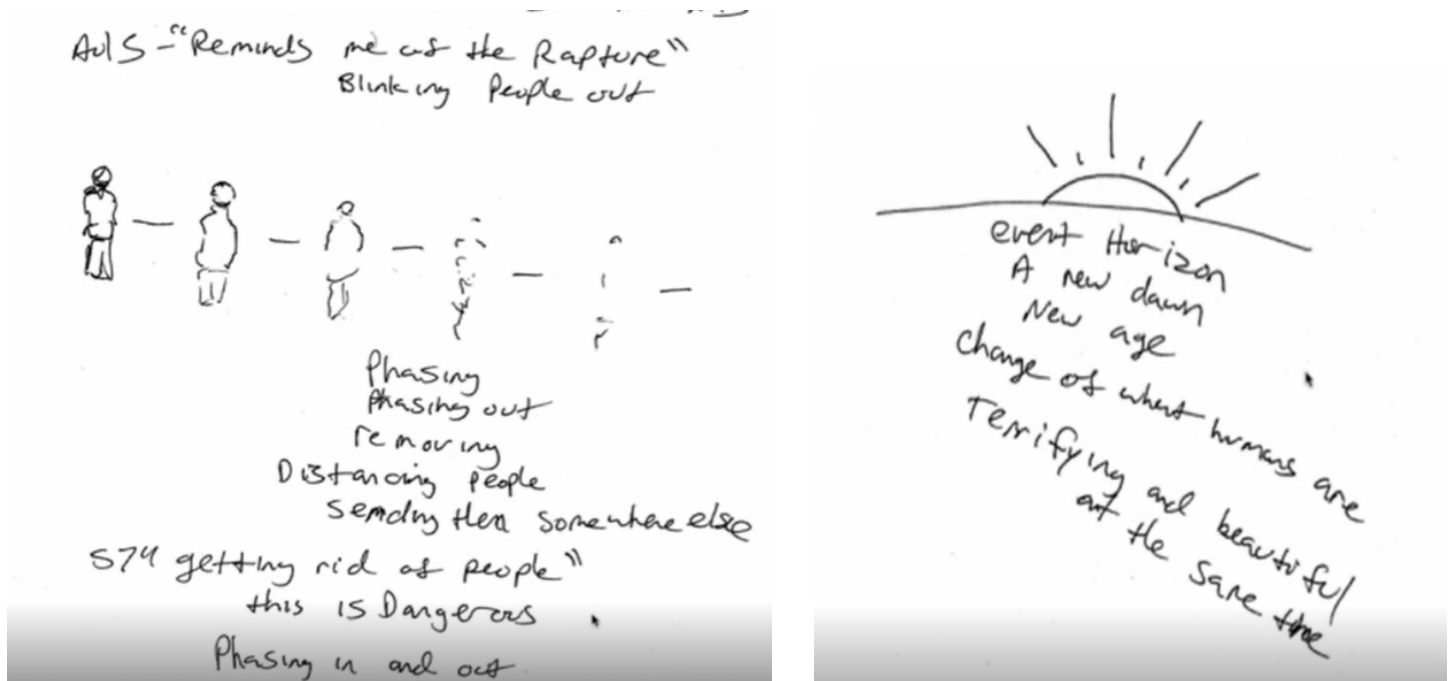

## Edward Riordan – Professional Remote Viewer

Remote Viewing: The Q anon Session 6. The Event Horizon

In a [MUST WATCH remote viewing session](https://futureforecastinggroup.com/), highly talented Edward Riordan gives a very interesting and dramatic presentation. You can get more of the teams work at <https://futureforecastinggroup.com/>

Riordan's session revealed a phasing out or getting rid of people via a massive broadcast.

## LaQuinta Columna

LaQuinta Collumna, located in Spain, has been a leader in scientific-based truth since the Scamdemic began, and the first to factually prove nanotechnology and graphene oxide was in the injections.

### Zombie Invasion Predicted

Spain president states there will be a zombie invasion and La Quinta Columna scientist states the cause is prions disease caused by radiation RF (5G).

How Graphene and 5G cause Covid-19 - Covid-19 is caused by Graphene and Radiation RF

WHAT GRAPHENE OXIDE IS DOING TO HUMANS Research proves AI mind control technology

## Amazon AWS Terms of Use

If the world ever ends via a virus that “[causes human corpses to reanimate](#)” – a zombie apocalypse, and with a [short video I created](#) nearly 2 years ago!

Amazon’s web services arm had updated its terms of service with a special clause that kicks in in the event of **corpses consuming human flesh** and the fall of civilization.

The changes come with the release of its new Lumberyard Materials development tools, which allow developers to create games that run on its AWS servers. The terms state that Lumberyard is not to be used with drones, medical equipment, nuclear facilities, manned spacecraft or live military combat in normal times, but have a special exception.

Clause 57.10 of the [AWS terms of service](#) stated: “This restriction will not apply in the event of the occurrence (certified by the United States Centers for Disease Control or successor body) of a widespread viral infection transmitted via bites or contact with bodily fluids that causes human corpses to reanimate and seek to consume living human flesh, blood, brain or nerve tissue and is likely to result in the fall of organized civilization.”

## CDC Zombie Preparedness

### Zombie Preparedness

The [CDC Zombie Preparedness webpage](#) was up for years and the CDC says It's a tongue-in-cheek presentation designed to illustrate real disaster and emergency preparedness.

Being a researcher and knowing how conditioned response is a key element on multiple levels and being the conspiracy fact gut I am I tend to think there was/is more to this than preparedness!

# Deagel.com Predicted

## US Population Reduced by 70% by 2025

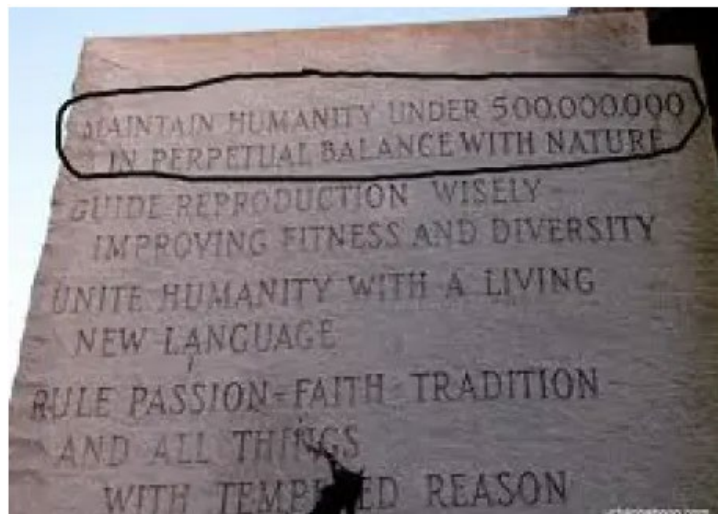

Just who is Deagel? [As reported by The Liberty Beacon](#): The power and influence of the corporation that you never heard of, is staggering. This is the modern day Zapata Oil, which was a CIA front corporation run by George H. W. Bush which in turn facilitated much of the Air America “drugs for guns” program in Latin America in the 1980’s.

Who is Deagle’s Partners?

- National Security Agency
- North Atlantic Treaty Organization (NATO – OTAN)
- Organization for Economic Co-operation and Development (OECD)
- OSCE
- Russian Defense Procurement Agency
- Stratfor
- The World Bank
- United Nations (UN)

<u>Year: 2013</u>
<i>Population: 316 million</i>
<i>Gross Domestic Product: \$17 trillion</i>
<i>GDP per capita: \$52,838</i>
<i>Budget: \$5.8 trillion</i>
<i>Military Budget: \$726 billion</i>
<u>Forecast 2025</u>
<i>Population: 69 million</i>
<i>Gross Domestic Product: \$921 billion</i>
<i>GDP per capita: \$13,328</i>
<i>Military Budget: \$8.0 billion</i>

In the beginning of 2014, Deagel published a projected demographic shift of every nation on the planet. The projections are noteworthy. As one of the most prolific arms dealers and sellers of intelligence information on the planet, Deagel would be in a unique position from which to make projections with regard to coming world events as well as being able to anticipate dramatic shifts in global power. Not surprisingly, Deagel has made such a projection and the news is not good for the United States. Below is a list of projected changes for the United States during the time frame covering 2014-2025.

# Conclusion

Are they going to do this? I have no idea, but planning ahead is a good idea.

I have 2 main questions:

1. **The first question is:** Can the powers that be scientifically achieved utilizing smartphones to send a frequency signal and release a pathogen? Yes, fact.
2. **The second question is:** Would the powers that be release a pathogen on the public? **My conclusion is yes. Why? If they did it before, they may do it again.** I am a researcher, and my conclusions are:
  - A. There was no virus. There was a biosynthetic parasitical technology aka fake-vaccine that transfers to others. Graphene Oxide is affected by radiation RF which causes coronavirus-like symptoms they call Covid. Anyone who researches and uses discernment should go over the below chain of research.
  - B. **HOW DID THEY PULL ALL THE COVID SCAMDEMIC OFF?** This is a link to a research chain I created over 2 years ago that provides solid research of how they pulled off the Covid-19 Scamdemic. Rockefeller Allopathic Big Pharma drug-pushing doctors will disagree, however, that is the industry that implemented the NIH Protocols which has killed perhaps millions.

**If they did it before, they may do it again.**

3. **What can you do** to avoid frequencies and the potential release of a pathogen?
  - A. On Oct. 4, 2023, shut off your smartphone AND place it in a faraday bag. I may do this on Oct. 11 as well, if you read the Public Notice, it said they could reschedule for the 11<sup>th</sup>.
  - B. Unplug your internet modem for the entire day.
  - C. Shut off your devices. TVs, computers and read a book or throw in a Blu-ray/DVD!
  - D. Stay home from work?!
  - E. Get out of the city and away from radio frequency.
  - F. In the long run, if you read my report on the Intra-Body Nano-Network, the smartphone is the Gateway. It is a good idea to obtain a de-Google phone.
